QUALITY.**

HELPING REBUILD AMERICA'S INFRASTRUCTURE

This is not just about piecing together metal and concrete. This is about rebuilding America's infrastructure. With every cut, every measurement, every weld, we bring our 63+ years of pipefitting and fabrication experience to bear. Pushing projects beyond their materials, we create structures that enable people to live healthy lives, feed their families, and diminish the distance between cities. We take our work, and yours, very seriously because this is so much more. **This is Gross Mechanical.**

OUR PROMISE. EVERY PROJECT. EVERY TIME.

- | Safety-First Approach
- | Just-in-Time Delivery
- | Quality Assurance Program
- | Project Management Program
- | Design-Build Services
- | Cost Control
- | Full-Time, Certified Welding Inspector (CWI)

THE CREDIBILITY IS IN OUR CERTIFICATIONS

- | American Society of Mechanical Engineers Stamps: PP, U, S
- | American Society of Mechanical Engineers Process Piping Code B31.3
- | National Board Certified "R" Stamp

CUTTING COSTS WITHOUT CUTTING CORNERS

Labor is time and time is money. Gross Mechanical wants to save you all three by reducing field labor to streamline construction and move your project forward more efficiently. Our ability to build and deliver what you need, when you need it can reduce or even eliminate the need for a laydown yard, decreasing field hours and total installed costs. Our 55,000 sq ft fab shop supports the expansion of our fabrication services and the success of your operations. Sometimes your work will take you outside of St. Louis, and we want to go with you, meeting even more of your needs and taking your projects to the next level.

INDUSTRIES SERVED

CHEMICAL & INDUSTRIAL MANUFACTURING

Our rapid response during downtime and creative solutions during routine maintenance will help you avoid wasted time and get you back to work.

POWER

Whether you plan to improve reliability, expand capacity, or create a more environmentally-friendly plant, Gross Mechanical is fully-equipped and ready to help.

OIL & GAS

Our exacting specifications and uncompromising tolerances exceed expectations for regulatory guidelines and safety standards.

PHARMACEUTICAL

From clean planning to even cleaner execution, our collective expertise will take your project to the next level.

FOOD & BEVERAGE

Our deep knowledge in food and beverage safety requirements equips you to consistently provide safe, clean food and drinks for your consumers.

WATER/WASTEWATER

Whether you require high-density polyethylene or stainless steel piping, we are ready to serve and keep your operations moving along smoothly.

YOUR SUCCESS BEGINS IN OUR SHOP

- 55,000 sq. ft., United Association-approved shop
- 9 overhead cranes
- Up to 25 welding stations
- Flux core, gas metal arc, submerged arc, and gas tungsten arc
- 100+ weld procedures on almost any metallurgy in the industry
- Indoor area for modular or skid construction
- Separate carbon steel and stainless steel fabrication areas
- Nondestructive evaluation and hydro testing area
- Structural steel fabrication area

THE GROSS MECHANICAL EXPERIENCE

Gross Mechanical is a mechanical contractor specializing in industrial construction for projects ranging from fabricating single spools to emergency maintenance calls to \$30+ million capital projects. Our goal is always to exceed client expectations and become the contractor of choice in mechanical construction. We take pride in our advanced project management process, first-rate customer service, and exceptional quality—delivered on time and on budget. Here, a relationship doesn't end when the project does.

That's what makes us Gross Mechanical.
